Trans National Accesses What happened

Final Meeting

Bruxelles, 6th April 2016

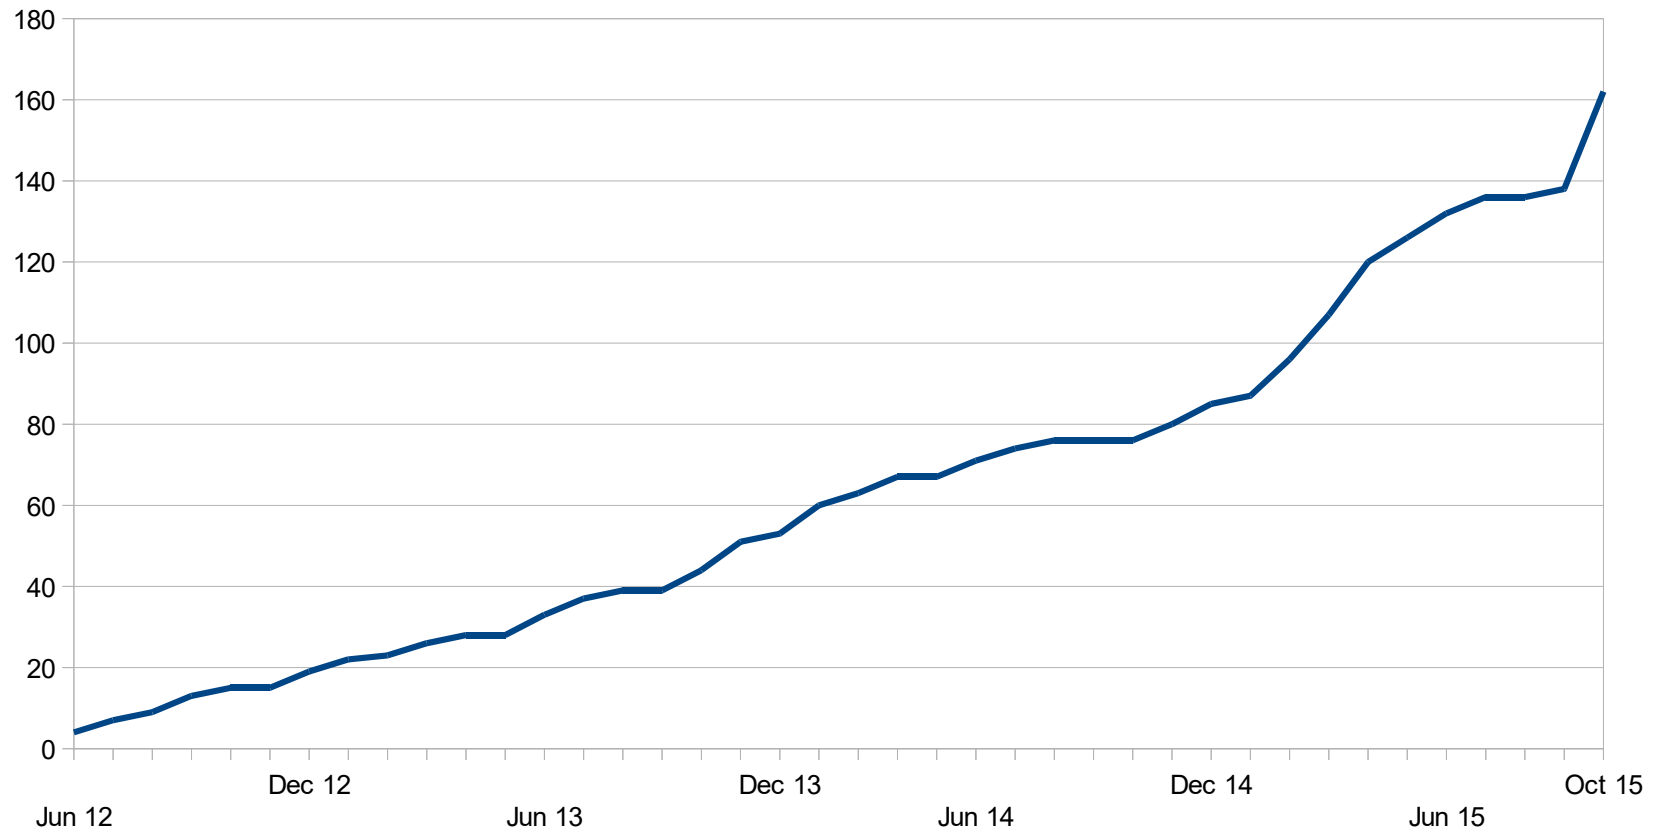

Numbers in comparison

From the opening of the call (September 2012) to the last extended deadline (30th October 2015) we received

162 pre-applications (+ 19 in the last 10 days of October 2015)

19 in 2012, 34 in 2013, 32 in 2014, 53 from January to September 2015,
24 applications in October 2015

- a) The promotion activity (by Site Managers and communication team and applicants themselves) made the difference;
- b) The final deadline encouraged a lot of submissions (but implied a lot of rejections due to access limits for single Sites)

Users' working countries

114 projects have been approved

Spain 22
